# This is a chapter that won't have number in table of contents

The {-} does that. Pandoc also supports labels for references.

See <https://pandoc.org/MANUAL.html#pandocs-markdown>

# 1 This is a chapter title

Lots o' markdown.

## 2 This is another chapter title

More text.

### 3 Instructions

Change the font from Rosario / Ubuntu Mono to your font of choice; any installed font should work. Change the line spacing by changing value in `\setstretch{}`, it defaults to 1.1.

To convert to PDF:

```
$ pandoc -s --toc --pdf-engine=xelatex -V --toc-depth 2 --highlight-  
style=tango yourbook.md --out yourbook.pdf
```
